Title: Modelling temperature and fish biomass data to predict annual Scottish farmed salmon, *Salmo salar* L., losses: development of an early warning tool
Journal: Preventive Veterinary Medicine

Dear Ms. Moriarty,

I am pleased to inform you that your paper has been accepted for publication.

Your accepted manuscript will now be transferred to our production department. We will create a proof which you will be asked to check. You can read more about this [here](#). Meanwhile, you will be asked to complete a number of online forms required for publication. We will contact you in case we need additional information from you during the production process.

Thank you for submitting your work to Preventive Veterinary Medicine. We hope you consider us again for future submissions.

Kind regards,

Vitor Salvador Picão Gonçalves
Editor
Preventive Veterinary Medicine
